

# Albert Park Primary School SunSmart Policy

## PURPOSE

The purpose of this policy is to encourage behaviours at Albert Park Primary School to minimise the risk of skin and eye damage and skin cancer.

This policy provides guidelines to:

- support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally mid-August – end of April)
- ensure that there are outdoor environments that provide adequate shade for students and staff
- ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection
- support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

## SCOPE

This policy applies to all school activities, including camps and excursions. It is applicable to all students and staff.

## POLICY

Excessive exposure to the sun's ultraviolet (UV) radiation can cause health problems including sunburn, damage to skin and eyes, and an increased risk of skin cancer.

UV radiation:

- cannot be seen or felt
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow
- can pass through light clouds
- varies in intensity across the year (highest in Victoria from mid-August – end of April)
- peaks during school hours

Sun safety is a shared responsibility and staff, parents and students are encouraged to implement a combination of sun protection measures whenever UV levels reach 3 and above (typically from mid-August to the end of April in Victoria). Information about the daily local sun protection times is available via the SunSmart widget on the school's website, the free SunSmart app, or at [sunsmart.com.au](http://sunsmart.com.au) or [bom.gov.au](http://bom.gov.au).

Albert Park Primary School has the following measures in place to help reduce the risk of excessive UV sun exposure for staff and students.

### Shade

Albert Park Primary School will provide sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as popular play areas, play equipment and the oval /assembly area.

Be Kind and Fair

Act Safely

Respect Everyone's Rights

One Voice at a Time

Keep Trying

When building works or grounds maintenance is conducted at Albert Park Primary School that may impact on the level of shading available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

### Sun protective uniform/clothing

Albert Park Primary School's school uniform and dress code includes sun-protective clothing, including:

- loose, cool, closely-woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts and skirts
- rash vests or t-shirts for outdoor swimming activities.

From 20 August to 30 April all students **must** wear a sun protective hat that shades the face, neck and ears for all outdoor activities.

Students are required to wear a school hat or another hat style that protects the face, neck and ears when outdoors, for Albert Park Primary broad-brimmed or bucket. Students who are not wearing appropriate protective clothing or a hat may be asked to play in the shade or in a suitable area protected from the sun.

### Sunscreen

Albert Park Primary School encourages all staff and students to apply SPF30 (or higher) broad-spectrum, water-resistant sunscreen daily whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors, and reapplied every two hours according to [manufacturer's instructions](#).

Albert Park Primary School has strategies in place to remind students to apply sunscreen before going outdoor i.e. sunscreen stations and SunSmart posters at the classroom, sunscreen monitor reminders to students to apply sunscreen before they prepare to eat -approximately 15 minutes prior to going outside.

At Albert Park Primary School students are welcomed to the staff room foyer to access sunscreen. Staff and students who may suffer from allergic reactions from certain types of sunscreen are encouraged to contact the school nurse and bring their own sunscreen to implement a management plan to reduce the risk of an allergic reaction at school.

Staff and families should role model SunSmart behaviour and are encouraged to apply SPF 30 (or higher) broad-spectrum, water-resistant sunscreen when outside.

### Sunglasses

Where practical Albert Park Primary School encourages students and staff engaged in outdoor activities to wear close-fitting, wrap-around sunglasses that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible.

### Curriculum

Students at our school are encouraged to make healthy choices, and are supported to understand the benefits and risks of sun exposure. Albert Park Primary School will address sun and UV safety education as part of the Victorian Curriculum health and Physical Education.

Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour across the school community.

Be Kind and Fair

Act Safely

Respect Everyone's Rights

One Voice at a Time

Keep Trying

## Engaging students, staff and families

SunSmart behaviour is regularly reinforced and promoted to the whole school community through newsletters, school website, staff and parent information, school assemblies, student and teacher activities and at student enrolment/new staff orientation.
